

Girls! Don't miss out on your HPV vaccination

If you are in school/college years 8 -13 and have missed out on your HPV jab, you can make a confidential call and ask to have it done. The vaccination will reduce your risk of getting cervical cancer by 70%.

Call the young person's health line *SHADE confidential* on **07760 990 582** or **07760 990 584** between 9am and 5pm Mon - Fri. After you have been in touch, your school health nurse will get in touch to answer any questions about the HPV vaccination.

Don't miss out! Call now.

If you have left school/college, contact your GP to make an appointment.
