

9 June 2020

Dear parents/carers,

In collaboration with researchers at the University of Oxford, our school has signed up to take part in the 'Online Pupil Survey - Home Edition', which aims to monitor the well-being of school pupils during lockdown and to assess the impact of COVID-19 on mental wellbeing and learning.

Please can you support us to support your child by helping them complete this.

There are two ways that your child can access it: via Show My Homework or via the links sent by text to your phone.

Note that you will need to use the personalised login and password that will be texted to you and put on Show My Homework but cannot be displayed on the website for obvious reasons.

You will see that there are three separate surveys; please can your child only complete the one that is relevant to them. Please ensure that it is your child that completes it, as we need their thoughts and opinions although you are welcome to help them if they need help.

It is important to emphasise that this survey is completely anonymous. The school will not keep any specific information on individual pupils. It will be very helpful and beneficial for us to give pupils the opportunity, in a safe and controlled way, to let us know the recent impact of COVID-19 on our pupils' mental wellbeing so that we can plan how best to support them next year and we ask that you support us to support them.

There is more information about the survey on the research team's webpage, including Frequently Asked Questions (<https://www.psych.ox.ac.uk/research/schoolmentalhealth>).

Link to survey (Password will be texted to you and put on SMHW)
