

19 June 2020

Dear Parents/Carers,

I am writing to update you on the work pack provision for home learning.

Thank you for your support in continuing to ensure that your son/daughter has been completing learning from the work packs. The work that has been submitted via drop off at the academy has been excellent and it has been a pleasure to give feedback to students and see the effort they are putting in to completing work to such a high standard.

Just to remind you that completed tasks can be dropped off and picked up on the days below via the box on the bench outside reception:

Monday – Year 7

Tuesday – Year 8

Wednesday – Year 9

Thursday – Year 10

In addition, there will be blank exercise books and paper available to collect on the drop off/collection days if your son/daughter would like these to work on.

In order to further support your son/daughter in their home learning, please find attached an outline for each subject for the remainder of term to provide guidance on topics for students to complete. For each year group you will find the topic and page numbers, which should be completed each week. If you have a different version of the book or are working from another resource, please use the index to study the same topic even if the page references are different.

Please note that we continue to use Show My Homework as our primary platform to set and monitor home learning and the attached guidance should only be used if your son/daughter is unable to access the online resources at home.

As always, we will continue to make regular phone calls to all families but please do get in touch with me via fiona.turner@theoxfordacademy.org.uk if you require any support in submitting your son/daughter's completed home learning.

Yours sincerely,

Fiona Turner
